3 Tour description in a nutshell: The south east corner of the mighty Australian continent has everything to offer to the demanding motorbike rider: The most fabulous winding back roads through green moderate rainforests, amongst which the world famous "Great Ocean Road" with its spectacular rock formations, that seems to be made for bike riders! We ride through more spectacular scenery and lots of National Parks such as the Otways with its many Koala's, the Grampians (Kangaroos!), most national parks in the Australian Alpine area, the Hawkesbury River and many more.

Of course we also spend some time in the classy metropolises Sydney and Melbourne. The route has been carefully put together to ensure the participants will have an everlasting experience! You will get

to know the "Real Australia": very green, winding roads, impressive scenery. The average distance per day is approximately 250 km. and we sleep in lodges, motels, hotels, all included in the price.

This is a beautiful holiday that you will not easily forget!
